

BUILDING TOMORROW, TODAY

Road Maintenance Package – Halmahera, Indonesia

Halmahera Sukses Mineral

Capacity

30.000 meter
135 Manpower

Client

Halmahera
Sukses Mineral

Schedule

Jun 2023 – Mei 2025

Project Overview

We provide crucial infrastructure support, clearly demonstrated by our large road maintenance project for Halmahera Sukses Mineral. We're responsible for keeping 30,000 meters (30 kilometers) of their roads safe and operational. This isn't just about small fixes; it's a complete plan to make their important transport routes last longer and work better.

The excellent quality and scale of this project are thanks to our 135 dedicated and skilled team members, who are specially trained for challenging mining road environments like Halmahera. Our work with Halmahera Sukses Mineral shows our expertise in delivering top-tier maintenance solutions that help our clients succeed.

Road Construction Package – South Sumatera, Indonesia

Bukit Asam

Capacity

900.000 m³
1.000 meter
150 Manpower

Client

Bukit Asam

Schedule

Dec 2024 –Aug 2025

Project Overview

We deliver consistent infrastructure, as shown by our work with Bukit Asam. For them, we prepared the land by moving and compacting an enormous 900,000 cubic meters of earth, creating a solid base. This work was key to building 1 kilometer of new road, which will greatly improve their operations.

Our team of 150 skilled workers ensured the project was completed smoothly, on time, and within budget. Our success with Bukit Asam highlights our ability to handle complex projects from start to finish, always delivering top quality of work.

Girder Installation and Soil Works Toll Road MKTT Section 4B – 5
North Sumatera, Indonesia

Perumahan Pembangunan

Capacity
3.150.000 m3
35.000 meter

Client
PT PP Tbk

Schedule
Sep 2015 – Sep 2017

Project Overview

We deliver consistent infrastructure, as shown by our work with PT Pembangunan Perumahan, Tbk. For them, we prepared the land by moving and compacting an enormous 3.150.000 cubic meters of earth, creating a solid base. This work was key to building 35 kilometer of new road, which will greatly improve their operations.

Our team of skilled workers ensured the project was completed smoothly, on time, and within budget. Our success with PT Pembangunan Perumahan, Tbk. highlights our ability to handle complex projects from start to finish, always delivering top quality and ensuring our clients satisfaction.

Girder Installation, Erection and Soil Works Toll Road Medan – Kualanamu
North Sumatera, Indonesia

China Harbour Engineering - China State Construction Engineering Corporation – Hutama Karya (Joint Operation)

Capacity

1.700.000 m³
17.800 meter

Client

CHEC-CSCEC-HK.JO

Schedule
